**One Stop Shop**

**Oilfield and Industrial consumables and materials**

### What?

T32 is a rust remover and metal brightener for de-rusting carbon steel and restore stainless steel.

### Where?

Remove corrosion on hulls, decks, structure and process equipment where grit blasting is not suitable. Removes corrosion by chemical reaction. Removes rust streaks from painted surfaces.

### How?

Remove any large flakes or rust by mechanical means (hammer, scrape etc) Apply rust remover by brush, spray or by soaking. Allow time for reaction, agitate by wire brush if required. Flush off with potable water when satisfied. Neutralize and protect surface with light spray of Trimar T10 after water flushing. Ensure proper ventilation and use correct PPE.

On stainless steel that has turned brown use T32 as a brightener to clean and passify the surface. Flush after use and apply T10 as described above.

### Why?

- Convenient at hot work locations
- Not flammable
- Effective and economical
- Minimum preparation and support
- Easy to use
- Make your equipment look good again.
