

## TS-264 SeaSafe EP Grease (Biodegradable) [Ts264;264;Skid Grease; 45 lb (5 Gal) Pail

[10-264-206]

**Container Size:** 40 lbs  
**Product Line:** TS-264  
**Shipping Weight:** 43 lbs

TS-264 SeaSafe(TM) EP Skid Grease is used for skidding steel-on-steel rails or steel on wood timbers in an environmentally sensitive area. It is a biodegradable grease without petroleum oils and with molybdenum disulfide for skidding operations where grease comes into contact with water. TS-264 has passed the protocols of the U.S. Environmental Protection Agency.

### Application

**TS-264** is designed for lubricating any type of rail that, in particular, may result in the lubricant's becoming immersed in water. Examples of applications include skidding vessels into the water from a shipyard or skidder ways of offshore drilling rigs where grease may be washed overboard during cleanup.
